7. Policies to publish

- Deposit amount, when it becomes non-refundable, and how rescheduling works.
- A reasonable notice window (recommend 12–24 hours).
- Late-arrival rule (for example, after 15 minutes the service may be shortened or moved).
- Travel fee and exact coverage area.
- Removal, repair, length, and art are priced separately unless stated.
- A brief workmanship window (for example, contact within 48 hours with photos); exclude impact, picking, chemicals, and misuse.
- Hygiene/health refusal policy and patch/sensitivity considerations where relevant.
- Photo consent must be optional and documented.

8. Funnel and numbers

Track weekly: inquiries, qualified leads, deposits, completed bookings, average order value, rebooking, referrals, no-shows, and ad spend.

Formulas: inquiry-to-deposit = deposits ÷ inquiries; show rate = completed ÷ deposits; cost per booking = ad spend ÷ deposits; revenue per appointment = service + add-ons – discounts. Do not scale ads until the business knows product cost, travel cost, and effective hourly earnings.

9. Instagram and TikTok copy

10. Influencer collaboration

Choose Cali micro-creators with local followers, genuine comments, consistent story views, brand-safe content, and an audience likely to buy. Ask for audience city/age screenshots before paid work.

Outreach: Hola, [NAME]. Soy [TECH] de [BRAND], un servicio boutique de uñas a domicilio en Cali. Me gusta cómo conectas con tu comunidad. Quisiera proponerte [gifted/paid] un servicio a cambio de [1 Reel + 3 stories], con opinión honesta, etiqueta y enlace a WhatsApp. ¿Te comparto el brief y revisamos disponibilidad?

Track each creator with a unique keyword or link. Require clear disclosure such as “colaboración” or “publicidad” as applicable.

11. Canva build specification

Create a Brand Kit with: blush #F4D6DC, ivory #FFF9F5, berry #6E2942, champagne #C9A46A, charcoal #292326. Use Cormorant Garamond or DM Serif Display for headlines and Manrope or Montserrat for body copy.

Templates: business card 3.5×2 in with QR; Instagram post 1080×1350; story 1080×1920; five-slide carousel; service menu A4; highlight covers; testimonial card; offer card. Keep one CTA, one price, and one proof point per ad. Maintain wide margins and high contrast.

12. Figma file specification

Pages: 00 Cover; 01 Foundations; 02 Components; 03 Social Templates; 04 WhatsApp Flow; 05 Print; 06 Prototype.

Components: logo lockup placeholder; CTA button; price pill; service row; offer badge; trust icon; QR placeholder; photo frame; legal footnote. Create variants for square/post/story/print. Use an 8-point spacing system and named color/text styles. Prototype Instagram ad → WhatsApp greeting → menu → service choice → slot → deposit → confirmation.

13. Copy-paste prompt for Claude Design

Create a complete bilingual-ready brand and conversion system for a boutique mobile nail technician in Cali, Colombia. Customer-facing output must be Spanish. Brand placeholders: [BRAND NAME], [TECH NAME], [WHATSAPP], [COVERAGE]. Positioning: “Uñas boutique a domicilio en Cali: cuidadas, bonitas y sin desplazarte.” Use blush #F4D6DC, ivory #FFF9F5, berry #6E2942, champagne #C9A46A, charcoal #292326. Pair an elegant editorial serif with a clean geometric sans serif. Avoid childish pink, heavy glitter, generic beauty clichés, low contrast, and fake reviews.

Create: (1) brand foundation; (2) responsive service menu; (3) four deal cards; (4) WhatsApp booking flow map; (5) Instagram 1080×1350 templates; (6) story 1080×1920 templates; (7) business card with a QR placeholder; (8) mobile landing page; and (9) reusable component library. Use COP as the primary currency. Feature “Manicure semipermanente desde COP \$55.000”; show conditions next to offers. Include components for removal, nail art, length, repair, and travel add-ons. Use real-photo placeholders labeled “REPLACE WITH REAL PORTFOLIO.” Make all copy editable and build accessible hierarchy, contrast, spacing, and large tap targets. The main CTA is “Agenda por WhatsApp.”

14. Copy-paste prompt for Canva Magic Design

Design an elegant Spanish social-media kit for [BRAND NAME], a boutique nail service at home in Cali. Use blush, ivory, deep berry, champagne gold, and charcoal. Create one 1080×1350 service menu, one first-visit offer, one manicure + pedicure bundle, one referral card, one 1080×1920 WhatsApp booking story, and one horizontal business card. Exact CTA: “Agenda por WhatsApp.” Exact price line: “Desde COP \$55.000.” Add a clearly labeled QR

placeholder and [WHATSAPP]. Use refined editorial typography, strong contrast, generous negative space, and medium-brown Latina hands with realistic nail photography. No fake reviews, no USD headline, no excessive glitter, and no tiny policy text.

15. Copy-paste prompt for Figma AI

Build a production-ready Figma design system for [BRAND NAME], mobile nail services in Cali. Pages: Cover, Foundations, Components, Social, WhatsApp Flow, Print, Prototype. Add variables for the five brand colors and 8-point spacing. Create text styles and responsive components for CTA, offer card, service row, price, add-on, trust marker, QR placeholder, photo frame, and footnote. Frames: 1080×1350, 1080×1920, A4, 3.5×2 in, and mobile 390×844. Prototype: Instagram ad → WhatsApp entry → menu → service → date → address/coverage → deposit → confirmation → reminder → review → rebook. Spanish copy, COP prices, WCAG-conscious contrast, editable Auto Layout, no rasterized text.

16. Pre-launch checklist

Confirm service competence and supply list; calculate cost and hourly margin; choose base zone and travel fee; photograph 8–12 real sets; set WhatsApp catalog and quick replies; create payment/deposit policy; generate wa.me QR from the final +57 number; test QR from two phones; publish menu and conditions; run a small creative test; review results after at least 20–30 qualified conversations, not just likes.
